

# arpit pandey

**UX designer & percussionist**

I am a UX designer with 7+ years of experience in visualising and crafting digital products with hands-on experience in using leading tools and softwares in design.

## Experience

### **Bosch**

Client: Rolls-Royce Power Systems  
Friedrichshafen, Germany

**Senior UX Designer / May, 2019 to Present**  
**Bengaluru, INDIA**

I designed experiences on a service application used by field technicians for engine maintenance across multiple industries by creating wireframes, improving user & task flows, and enhancing visual designs which led to resolving customer problems in a shorter period of time.

### **Mastercard**

**UX Designer / Nov, 2017 to Feb, 2019**  
**Gurugram, INDIA**

I created 5 prototypes in Invision to build MVPs for the global innovations team & conducted design workshops to plan the overall project scope. I was also part of the design systems team that created design components and interaction guidelines for Mastercard.

### **SAP**

**UX Designer / May, 2015 to Oct, 2017**  
**Bengaluru, INDIA**

I created design solutions to enhance the search experience for SAP's internal products. I also managed projects focussed on improving web usability and simplifying complex user interactions for SAP.

## Education

### **National Institute of Design (NID)**

**M.Des (Master of Design), INDIA**  
**Interaction Design / 2013 - 2015**

I worked on several experimental projects involving web usability, mobile applications, physical computing & experience design.

### **Birla Institute of Technology (BIT-Mesra)**

**B.Sc. (Bachelor of Science), INDIA**  
**Animation & Multimedia / 2009 - 2012**

I created short animation films on social issues and developed interactive e-learning applications.

## Skills

### **Design**

Interface Design. Interaction Design.  
Task Flows. Wireframes & Mock ups with Sketch and Figma. Editing with Premiere & After Effects.

### **Research**

A/B Testing, Card Sort, User Interviews, Affinity Mapping, Information Architecture & Heuristic Evaluation.

### **Prototyping**

Rapid prototyping using Invision, sketch & Figma.

### **Languages**

Hindi (Native)

English (Fluent)
